Advanced Neurospinal Care

3609 Mission Ave, Suite F

Carmichael, CA 95608

Ladies and Gentlemen:

The purpose of this letter is to extend to you my most profound gratitude for the honor and privilege you have extended: allowing me to serve as one of your neurosurgical and spinal surgical consultant physicians.

For the last 40 years (beginning in August 1985) I have been the beneficiary of an extraordinary medical and professional trust from the greater Sacramento community including many parts of Northern California.

Your continuing wellness and health have always been the highest priority for the Advanced NeuroSpinal Care office in Carmichael, California.

Unfortunately, due to insurance industry financial limitations I must inform you that I will be closing my practice (Advanced NeuroSpinal Care: Roderick Sanden, M.D. — previously providing Neurosurgery and spinal surgery consultation and treatment) effective Friday, December 5th 2025.

It is important that you continue with the appropriate medical care. Therefore, you should establish contact with another physician as soon as possible.

In order that you continue with another doctor, the following list of spinal surgeons and neurological surgeons is provided.

In addition, a list is provided which includes the most common primary care providers previously utilized by Advanced NeuroSpinal Care.

Please note that the physicians listed below have in the past consistently accepted industrial or Work comp patients.

However, the physician that you choose, may not be in the highly restricted industrial injury or private insurance network imposed by the insurance company under which you currently interact with regarding reimbursement for your insurance loss claim.
